

CUSTOM- uniquely yours!

# The Idea Experts

Let your imagination run wild... Please don't limit your thoughts to only those products shown on previous pages. The purpose of this brochure is to showcase our talents and to inspire your dream project!

Imagine a beautiful new custom fabricated product at your home or business that only you have, no mass-produced products that every store in town has. Any product from Old Dutchman's will add a lifetime of distinctive service, beauty and value.

"I saw a design in Boston that I really loved..."

Old Dutchman's can build almost any ornamental product, if you've seen a certain design somewhere, in a magazine or develop one yourself, with a designer or architect please ask a sales/design associate to custom fabricate it for you.

*Elegance, security and safety combined*

**Gates**

Old Dutchman's can fabricate gates to any design and specification, whether it is simple or a very detailed and customized design we can fabricate a unique gate for you.

Our gates feature sturdy construction and can be designed for manual or automated use. Old Dutchman's uses only the finest quality materials available. Our gates are superior to those that are pre-manufactured and much sturdier due to its welded design.

Whether it's our design or yours we can fabricate the perfect gate for walkways, narrow and wide driveways, or commercial installations. Gates can enhance your life in many ways including security, added property value, style, child and pet safety.

**Gate Construction**

Structurally sound welding is the heart of a quality gate. Old Dutchman's has the newest technology in welding, whether it's steel or aluminum you can count on it being the strongest made.

**ALUMINUM Fencing**

An Old Dutchman's custom designed and fabricated aluminum fence can add beauty to any property. Aluminum provides durability and a maintenance-free product superior to other fence types.

Pre-manufactured aluminum fencing is one of the most common items you may see in your neighborhood. However, there are limitations to these mass-produced products, namely, their inability to conform to curved paths.

Old Dutchman's can custom bend our aluminum or Wrought iron fencing to follow almost any curved profile. This custom feature is extremely important when installing fencing around pools. With pre-manufactured fencing the curve would be achieved by joining straight segments. This of course compromises aesthetics considerably.

**Aluminum or Wrought Iron... The choice is yours!**

Many beautiful and decorative options are available in either materials. Old Dutchman's talented craftsmen create all its custom aluminum fencing by hand. The quality of the product is unmatched in its beauty and maintenance-free characteristics.

*Beauty and low-maintenance! Strength and time honored style*

**WROUGHT IRON Fencing**

Traditional ornamental wrought iron is still one of the most beautiful and decorative options available. Although it looks delicate do not let its looks deceive you. It is one of the sturdiest fences available.

Old Dutchman's offers many custom fence systems suited for residential and commercial applications. Our fence systems can be designed to complement any architectural style. Whether you require a rather simple or very complex layout or design we can build it for you. Old Dutchman's takes prides in going that extra mile to meet our customer's needs.

Our fencing is fabricated in our own facility by experienced professional ornamental fabricators using the newest technology and installed by our own trained and experienced installers (you can install our fencing yourself please inquire). Fencing is assembled in sections using fasteners designed for your specific project. All our fences are custom built with solid, hand-forged steel. Any pattern can be incorporated into the fence, please visit our Website's photo gallery to see the wide range of railings we have custom built.

Old Dutchman's understands the importance of the long-term investment our customers are making in their home and/or business. When planning we can provided sample 2-D drawings to show you the design style you've chosen. If you see a certain style anywhere or developed one yourself with your designer or architect, please ask a sales/design associate if we can custom build it for you.

## Balustrade

The newest addition to our large selection of ornamental iron parts is an exciting line of authentic hand-forged iron balusters. Iron balusters, often called spindles or pickets, are the bones of a stair railing system. Iron balusters and newels offer a unique, distinctive look to any staircase. Whether you are designing a custom home with an iron balustrade or remodeling and would like to upgrade to iron, our iron collection will set your home apart.

Available in many styles, both traditional and modern, these high quality balusters may be combined with wooden handrails to create a truly distinctive stair system for your home. The combination of wrought iron and wood is quickly becoming more the rule rather than the exception.

Should you wish to receive more information about our stock iron balusters and rail systems, please contact us by whatever means is most convenient to you.
